ROPE PULL Sensors

Special Products Model **RP-RM83F-38LTE-86271**

Modifications

- Status indicator : S1-K30LYRX7P
- No LED's on: Normal operating condition
- Yellow/Red LED: Rope tension (slack) or tension high (pulled)
- Red if +24V on terminal 23 of S1, Yellow if 0V
- Derived from model RP-RM83F-38LTE, p/n 82126.
- For further information see standard literature: 141245.
- This product has been modified from the standard product, for further information, contact the Applications Department at (763) 544-3164.

⚠ WARNING . . . Not To Be Used for Personnel Protection

Never use these products as sensing devices for personnel protection. Doing so could lead to serious injury or death.

These sensors do NOT include the self-checking redundant circuitry necessary to allow their use in personnel safety applications. A sensor failure or malfunction can cause either an energized or de-energized sensor output condition. Consult your current Banner Safety Products catalog for safety products which meet OSHA, ANSI and IEC standards for personnel protection.
