Bathroom fan 100mm, surface-mounted - with timer and humidity sensor

Marka: **Orno** | Symbol: **OR-WL-3200/100/HT** | Ean: **5908254816789**

PRODUCT DESCRIPTION

Useful bathroom fan that automatically draws the moist air to the outside. It is designed for wall mounting. A very quiet device that will take care of the air quality in the bathroom, but will not disturb our relaxation zone. The fan has a compact design 135x135mm and a short exhaust pipe with a length of 135mm, which will fit even in shallow ventilation ducts. The device is operated by a timer and humidity sensor that turns off the fan when the humidity drops below the set level. High-class bearings guarantee a long service life of the device.

TECHNICAL DATA

General information:

Static pressure:	30 Pa
Sound pressure:	36 dB
Rotation speed:	2400 rpm
Control:	humidity sensor and timer
Air flow:	93 m³/h
Type of assembly:	wall
Rated power:	8 W
Nominal voltage:	230V~, 50Hz
Material:	ABS
Installation depth:	67 mm
Dimensions - width:	135 mm
Dimensions - depth:	79 mm
Dimensions - height:	135 mm
Diameter:	100 mm
Colour:	white
Bearing:	plain bearing
