SIMPLEX soft-face mallets • Rubber composition; with cast iron housing and high-quality wooden handle

3002.060

Product Description

The SIMPLEX series 3002 is equipped with the rubber composition insert on either side.
This medium hard rubber insert (series 3202) is an absolute top seller. Ultra low-wear, impact cushioning and odourless, it offers a much longer service life than a conventional rubber hammer.
Made of cast iron, the housing comes with an integrated handle protection sleeve that provides for a high level of break resistance.
Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.
In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources.
This version is available in sizes ranging from D30mm to D80mm, as a sledge hammer (3002.081, 3002.100), and with rubber insert and “stand-up” (3022.261).
The D80mm version is also available with an extra short handle (3002.082).
Product features:

- SIMPLEX soft-face mallet with rubber composition inserts (black, medium hard, impact cushioning, odourless, low-wear) on both sides.
- Cast iron housing with integrated handle protection sleeve and excellent break resistanc.
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes ranging from D30mm to D80mm, as a sledge hammer, in size D60mm and D80mm with rubber insert and “stand-up”.
- D80mm available with an extra short handle (3002.082).
