Declaration of Conformity
California Prop65

California Proposition 65, also known as the Safe Drinking Water and Toxic Enforcement Act, has been in effect since 1986. Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects, or other reproductive harm. If the company is providing a material, part, or assembly that is added to a customer's product, the company must provide information regarding California Prop65 compliance to its business-to-business customers.

Proposition 65 does not ban the use of any chemicals but is intended to ensure the public is informed as to its exposure to Listed Chemicals.

The current Proposition 65 list is dated January 3, 2025, and can be found at The Proposition 65 List - OEHHA. This list is periodically updated with new chemicals and new evaluations.

Safe Harbor levels for these chemicals expired August 30, 2018, which results in more products requiring labels. The new revision also requires a specific chemical and hazard to be noted. Products requiring labels do not mean the chemicals in the products are airborne or not encapsulated, and therefore limits the likelihood of exposure.

These warnings may be found on individual website specification sheets and packing lists. The previous version of labeling for Safe Harbor levels expired on August 30, 2018. Any chemical that is encapsulated and does not off gas or add airborne pollutants to the environment is not required to be labeled. Appropriate labeling is found on packaging, purchase orders, and company websites.

At this time, Banner certifies that, to the best of our knowledge, devices under the following product code comply with the California Proposition 65 law.

Product code	Description
60.1432.1266	LIGHTING, WLA, illumination - Sealed

We will continue to work with our suppliers to ensure our products remain in compliance. As we continue to carry out our internal audit and work with our suppliers, we reserve the right to amend this statement at any time based on subsequent developments or information.

Should you have any questions or concerns regarding this statement, please do not hesitate to contact us.
