Slim and Comfortable Priority Selection

The flat body is 2.5mm only suitable for hiding in narrow spaces such as carpets door seams and corners
More convenient to integrate with the home environment

Fast Surfing Speed

Data transmission speed up to 10Gbps

Soft Line Body

Environmental PVC material, soft and durable

High Speed Download

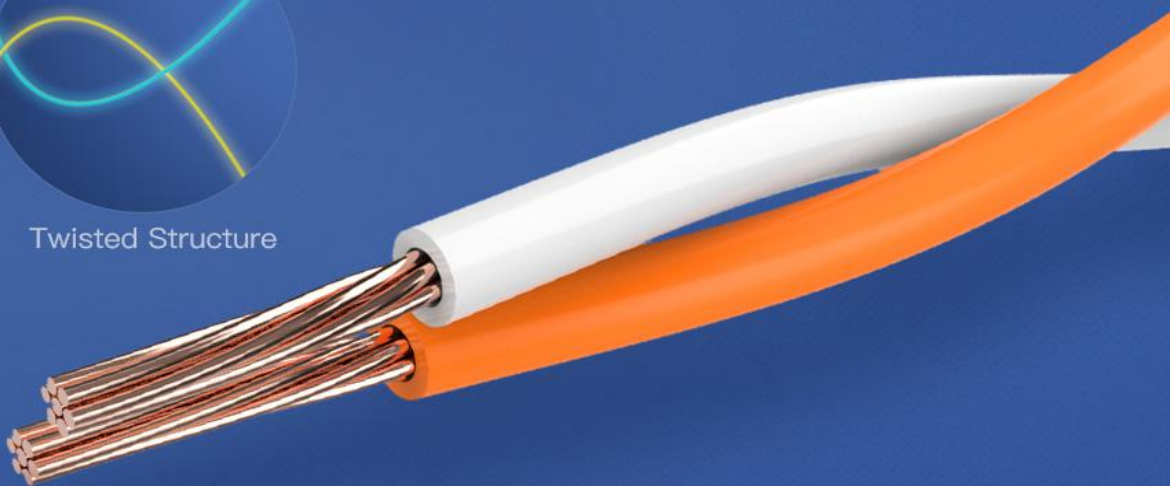

10 Gigabit Speed

10Gbps high speed transmission, faster download

Twisted Structure

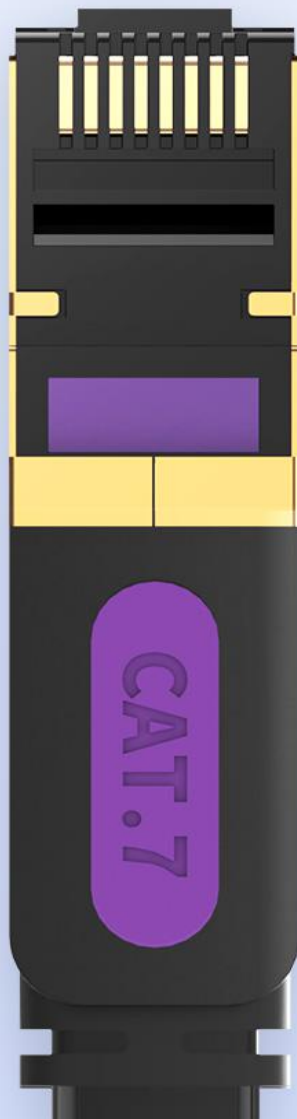

Eight Core Twisted Pair Structure

Each two cores are twisted together to resist external electromagnetic interference and ensure transmission stability

8P8C

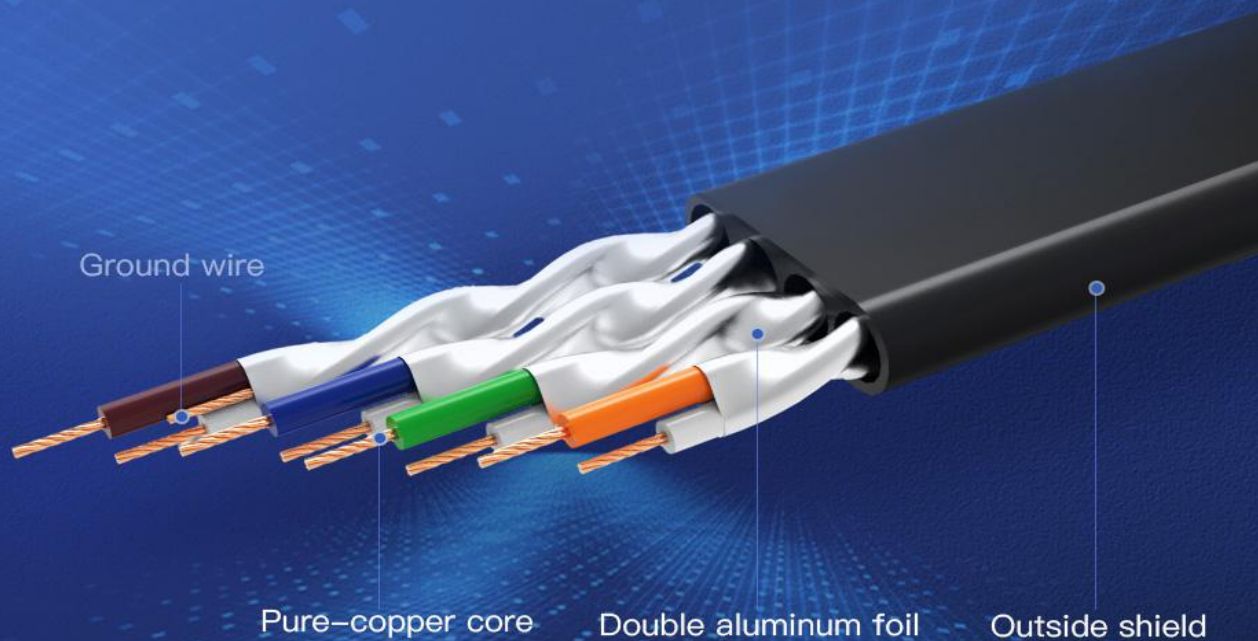

Pure Copper Contacts

8P8C pure copper contacts are connected in a single row to maintain good transmission stability

Aluminum-foil-shielded Wire

Multi-protection provides less signal losses and higher speed transmission

Transmission Bandwidth Contrast

Metal-shielded Crystal Head

Similar to Steel Material

The head of the crystal head is made of material similar to steel and the outer layer is covered with metal gold-plated shield

Metal plated shield

- Extended specification
More convenient
- Material similar to steel
With high elasticity and wear resistance
- Metal plated package
Durable shielded protection

Wide Applicability
