As a manufacturer and Trader of Electronics devices, Tool equipements since 1990. Goldtool is currently based in New Taipei City, Taiwan and service in 60 countries across Asia, Europe, Africa, the Middle East , United States and Latin America markets. To meet the increase demands from our clients and offer the best service with quality and competitive prices, we have officially launched another new factory in Suzhou, China in 2008.

For any bunsiness inquiry, please contact **goldsun@goldtool.com** for further information.

RESEARCH AND DEVELOPMENT

We have our R&D team in both our Taipei & Suzhou factory (An hr away from Shanghai), which give us the advantage to receive real time information and essential resources through our experienced contacts. We also customized for our clients according to their need.

QUALITY CONTROL

Goldtool holds certificate of ISO9001 & BSCI. We meet the requirement of RoHS, Reach and CE to ensure the quality control reach high standard and meeting the policy accordingly.

PCB ASSEMBLY

All our workers are strictly trained to use insertion machine and are monitored during the production. This is diligently done by our engineers and quality control team to inspect and continually improving on the production process.

PRODUCT PACKAGING

We provide customization service including artwork, laser crave, screen printing, blister and packing. Our designers are both experienced and talented hired by Goldsun to meet all our client needs.

MOLD & TOOLING

We specialised in Mold design in plastic and metal products in electronic device, professional tool and Mobile accessory. Our experienced mold makers deliver world class standard on all our products, including prototype and pre-production tools.

PLASTIC INJECTION

We train our injection machines technical and production specialists to accept nothing else than absolute quality control. The vertical and horizontal molding injection can do for most of precision electronic, computer and tool parts to enchance value-added manufacturing.

PRESSING & STAMPING

Our pressing machine is working for metal parts, which consist the process of forming & bending, likewise the making of tool case, small hardware and electric parts. With the joint effort of our professional trained technicians and engineers, we are able to achieve high satisfaction to all our customers.

TOOL & BAG

We specialized in production of leather, mobile, computer and tool bags. From prototype design to pre-production, Goldsun strive to achieve the best quality for our customers, especially on OEM products.

Goldsun's Taipei, Taiwan headquarter office is mainly focus on R&D, Testing, and product assembly of testing equipment for Electronics & Telecommunication. We hold the certificate of BSCI & ISO9001, which our products meet the requirements of CE, RoHS and Reach. As for our Suzhou, China factory focusing on the production of mold tooling, plastic injection molding, Parts injection, PCBA and so forth.

POE Cable Tester

- COMBO Functions for Cable Tester (POE Finder + Cable Tester)
- one machine do dual jobs .
- Easy to use for identify cable any conditions.
- POE Finder:
- The POE Finder is easy to use for identifying the existence of POE in seconds.
- The POE Finder will identify the type of PSE with 12-36(End Span) or 45-78(Mid Span).
- The POE Finder is able to detect what is the POE with IEEE802.3af or IEEE802.3at.
- Cable Tester:
- Cable Tester are able to identify the condition as below list:
- LAN(RJ-45), TEL(RJ-11/12), Coax(F/BNC) : (Pass, Open, Short)
- Nine LEDs for indicate the Conditions of Cables(LAN, TEL, COAX…)

When you do the test with inserted the Cable on the Jack of Main & Remote.

TCT-108

RJ45 LAN Cable Tester

Quickly and easily checks for cablecontinuity, miswiring. Open. Short.straight-through or cross pinning whatever the cable was installed or NOT.

- Port Type：RJ45
- Included：9V Battery, Carrying Case.

TCT-109

RJ45 / BNC LAN Cable Tester

Quickly and easily checks for cablecontinuity, miswiring. Open. Short.straight-through or cross pinning whatever the cable was installed or NOT.

- Port Type：RJ45
- Included：9V Battery, Carrying Case.

TCT-008

EZ Checker For F / RJ12 / RJ45

- Mini size, Easy for carry, Automatic “on” and easy to operation.
- Ideal for LAN installation.
- Multifunction for F, RJ11, RJ45 & BNC, USB (Used Adapter)
- Port Type：F/RJ11/RJ45
- Included：F/BNC Adapter, RJ45/USB. 9V Battery. Carrying Case.

TCT-009

LAN Quicker with Toner

- Can Test RJ45/UTP, RJ45 / STP cabling
- OPEN, SHORT and CROSS test function
- Full LED indication Lights
- Beep sound warning
- Step/Auto Select function
- Low Battery indication
- Auto Power Off
- Included: 9V Battery. Carrying Case.

TCT-320

HDMI Cable Tester

- Test all signal pin of HDMI cables.
- LED indicator on both main unit and remote unit.
- Automatic “ on” and easy to operation.
- Ideal for LCD TV HDMI connector.
- Port Type: HDMI (A)
- Included: 9V Battery. Carrying Case.

TCT-124

Coax Mapper/ ID Finder/ Toner

- Test coax cable with F-connectors or BNC connectors
- Detects and displays and Beep OPEN or SHORT conditions
- Displays PASS when no failures are indicated for each remote
- Includes four remote terminators: ID#1 (red), ID#2 (blue), ID#3 (orange), and ID#4 (green)
- Sends tone signal to center pin of coax cable

TCT-128

Coax Mapper/ ID Finder/ Toner

- Test coax cable with F-connectors or BNC connectors
- Detects and displays and Beep OPEN or SHORT conditions
- Displays PASS when no failures are indicated for each remote
- Includes four remote terminators: ID#1 (red), ID#2 (blue), ID#3 (orange), and ID#4 (green),ID#5 (red), ID#6 (blue), ID#7 (orange), and ID#8 (green)
- Sends tone signal to center pin of coax cable

CABLE TESTERS

PRO LAN TRACER / TONER

TCT-490

- Identify (ON Live Circuit) Condition (Ring / Busy / Clear) of TEL Line.
- Multi-Function Tester for(OFF Live Circuit) TEL
- Line(6P2C) & Pairs Wire.
- Enhance Tone Signals Output .
- Sensitive Signals Detect to be Probe for Pairs Wire Trace.
- Smart Operating Control Panel for Functions Setting.

TCT-491

PRO TONER

- Identify (ON Live Circuit) Condition (Ring/ Busy/Clear) of TEL Line.
- Multi-Function Tester for (OFF Live Circuit) TEL Line(6P2C) & Pairs Wire.
- Enhance Tone Signals Output .
- Smart Operating Control Panel for Functions Setting.

TCT-492

PRO LAN TRACER

- Sensitive Signals Detect to be Probe for Pairs Wire Trace.
- Works with any Tone Generator to identify wires.
- Volume control for increased sensitivity and suit work environment.
- Recessed ON/OFF button prevents battery drain.
- A receptacle is provided for head set or head phone.

TCT-470

Tone Generator & Probe Kit

- The Amplifier Probe is designed to identify without damaging the insulation.
- Works with any Tone Generator to identify
- Volume control for increased sensitivity.
- Recessed ON/OFF button prevents battery
- Power supply is in any 9V battery with a life.

TCT-680

Tone Generator And Probe

- The complete kit for crimping, punching down, testing and mapping all kind of copper cables.
- All the tools you need to prepare and install CATV coax cables and data network cables.
- Use tone generator/probe to test RJ-11 and RJ-45 connections and map data and telephone installations.
- LAN Pro data network cable tester provides pass/fail results on twisted-pair and coax cabling in seconds.

TCT-681

Tone Generator And Probe

- Sending/tracing a tone
- Supply talk battery power
- Testing cable continuity
- Coax testing
- Polarity test – identifying tip and ring
- Verifying the line

TCT-682

Network Probe

Tone Tracing
- Tracing (for unknown cable path/termination), Locating (termination verification/general area of termination), Locating (conductor break/discontinuity)

Line Testing
- Identifying telephone line polarity and verifying telephone line, Checking low voltage (less than 24 volts DC or AC only)

Battery Low indicate
- The battery low indicator lights when the battery (DC9V) need to be replaced

9-PIECE LAN Basic Repair Tool Kit With Heavy Duty Plastic Instrument Case

1	Punch Down Tools With 110 Blade & 60 Blade.
2	LAN Cable Tester.
3	Modular Ctrimping Tools For 8p/6p Ratchat.
4	UTP/STP Category 5 Cable Stripper & Cutter.
5	4 1/4" Diagonal Cutter.
6	Utility Knife With 3 Blades.
7	Holding Best Cushion Grip Electrician Screwdriver #1 x100mm.
8	Plastic Fliptop Boxes 9 Compartments With Hang.
9	Black ABS Heavy Duty Plastic Instrument Case. Dimension: 287x255x86mm.

TTK-648

Telemaster Termination Kit

- Impact Punch Down Tool With 66 & 110 Blade
- UTP/STP Category 5. Cable / Stripper & Cutter
- Modular Crimping Tool For 8P / 6P W/Ratchet

GRK-180

Electrical Home Repair Kit

- 6" Long Nose Plier
- 8" Crimping / Stripper / Cutter Tool
- 30' PVC Electrical Insulation
- Nylon Cable Tie
- Solderless Terminal Kit

GTK-300

Electrical Tester Kit

- Digital Multimeter
- GFCI Receptacle Testers 110~125V AC Circuits.
- AC Voltage Detector

GTK-079

Basic Soldering Tool Kit

- Digital Multimeter with LED
- Solder Wire 15 Gram In Tube 60% Tin 40% Lead
- Diagonal Cutter 4-1/2"(115mm) with Blue Color Sleeve

Screwdrivers: Slotted 5mm x 4", 6mm x 4", Phillips 5mm x 4" x #1, 6mm x 4" x #2. 2-in-1 Mini Screwdriver. Spudger Non-Conductive Probe & Alignment Tool 170mm. Utility Knife with 3 blade. 5" Electrician's Scissor. Cable Splicing Kinfe with TPR Cushion Grip Handle. 6" Long Nose Plier. 6" Slant Edge Plier. 8" Crimping/Stripper/Cutter Tool.

TTK-3000

Master Telecom Installation & Repair Kit

Screwdrivers: Slotted 5mm x 3", Phillips 5mm x 3" x #1, Mini Screwdriver. Spudger Non-Conductive Probe & Alignment Tool 170mm. High Precision 125mm & 180mm Stainless Tweezer. 8oz Clam Hammer Wood Handle. Utility Knife with 3 blade. 5" Electrician's Scissor. Cable Splicing Knife with TPR Cushion Grip Handle.

CABLE TESTERS

3-in-1 Professional Tracer / Toner Cable Tester

TCT-700

- Test for Sending/Tracing a tone, Cable continuity, Coaxial, Polarity, Verify a line.
- The LAN Tracer is designed to identify and trace wires or cables within a group without damaging the insulation.
- Works with any tone generator to identify wires.
- Red and Black test leads are provided, and has a standard 4 conductor modular cord and plug.
- Composite tip reduces shock risk.
- LED signal strength indication.
- Adjustable volume control.

TTK-300

LAN / Coax Master Kit

- The complete kit for crimping, punching down,testing and mapping all kind of copper cables.
- All the tools you need to prepare and install CATV coax cables and data network cables.
- Use tone generator/probe to test RJ-11 and RJ-45 connections and map data and telephone installations.
- LAN Pro data network cable tester provides pass/fail results on twisted-pair and coax cabling in seconds.

TCT-701

3-in-1 Professional Toner / Cable Tester

- Test for Sending a tone, Cable continuity, Coaxial, Polarity, Verify a line.
- Red and Black test leads are provided, and has a standard 4 conductor modular cord and plug.
- Modular jack and test pins for multiple connection options.
- Ring-tip polarity test indicator.

TCT-702

3-in-1 Professional Tracer

- The LAN Tracer is designed to identify and trace wires or cables within a group without damaging the insulation.
- Works with any tone generator to identify wires.
- Composite tip reduces shock risk.
- LED signal strength indication.
- Adjustable volume control.
- Earphone jack for noisy environments.

TCT-100

LAN SOHO Cable Tester

Use to test UTP, STP Cables. Easy to read cable status and verify cable continuity ; open/short circuits, wire cross (reversed) and split. Dual color ABS/TPR of soft and easy handle on work. Belt clips and patch cables provided.

TCT-200

LAN SOHO Cable Tester

- Use to test UTP, STP and Coax Cables.
- It's a multi-function cable tester for RJ45 LAN cable and BNC coaxial cable. Split tester for various LAN and Coaxial cables.
- TONE mode is for cable tracing and troubleshooting.
- Dual color ABS/TPR of soft and easy handle on work. Belt clips and patch cables provided.

CABLE TESTERS

TCT-1620

Remote Cable Tester

• Tests five types of cables:
RJ-45/RJ-11/BNC/1394/USB.
Checks for continuity, miswiring, opens, shorts, crossover, and grounding.
Simple one button test Ergonomic, portable hand held design.
Tests installed wiring or patch cables. Remote attaches to main unit.
600' test distance (RJ-45, RJ-11,BNC). Built-in battery test.
LEDs indicate connections an faults. Beeper provides audible annunciation of test results.
Tests shields in 1394 and USB cables.
Tests shielded (STP) or unshielded (UTP) LAN cable. Includes: BNC terminator, RJ-45 jumper cable, RJ-11 Cable, carrying case, 9V battery, and instruction manual.

TTK-1250

64-PIECE LAN Termination Kit

LAN cable tester. Modular crimping tool for 8P8C/RJ-45, 6P6C/RJ-12 , 6P4C/RJ-11. Universal stripping tool.16 pcs super torque ratchet driver set - includes: Changeable shank ratchet drive. Phillips bit shanks: #1, 2, 3, Slotted bit shanks: 4, 5, 6mm. Sockets: 4, 5, 6, 7,8, 9, 10, 11, 12, 13mm (3/16, 7/32, 1/4, 9/32, 5/16, 11/32, 3/8, 7/16, 15/32, 1/2). Adjustable impact punch down tool with 110 blade. 7 pcs folding type hex wrench. 10 pcs 8P8C/RJ45 modular plug. 24 pcs corlor strain relief.

TTK-1280

80-PIECE LAN / WAN Installer's Kit

Remote cable Tester for RJ45 (8P8C) RJ11(6P6C) USB / 1394 / BNC.Utility Knife. Adjustable impact punch down tool, with 110 blade. Modular crimping tool for 8P8C/ RJ-45 6P6C/RJ-12 6P4C/RJ-11. 6" Diagonal plier.6" Long nose plier. 5" Electrician scissor. 6"Wire stripper/cutter.
7 pcs folding type hex wrench.Plastic color torch. 6" adjustable wrench. 9 pcs mini combination wrech.(8,9,10,11,12,13,14,15,16mm)
16 pcs super torque ratchet driver set includes:

- Changeable shank ratchet drive
- Phillips bit shanks: #0, 1, 2
- Slotted bit shanks: 1/8, 3/16,1/4

TCT-400

ID Finder Network Kit One for All Network Kit With Probe & 25-PIECE ID Finder

- Combines tone generator, of face ID check, network tester, and pin-by-pin cable tester.
- Remora unit for pin-by-pin tests of patch cable or installed cable.
- Office / port ID checker establishes ID number of up to 100 networks or patch panel outlets without labels.
- Can give type and speed of both active and inactive network devices.
- Tone generator tracing cable and pinpointing fault locations easy.
- Network tester blinks the hub or switch port light for easy port # identification, and displays network activity and speed.
- Compact, lightweight, and portable.
- Line voltage tester prevents damage to equipment.
- Handy ID rack keeps remote ID terminators safe and ready to hand.

TTK-2000

81-PIECE LAN Installation Service Kit

- This kit contains all of the tool for cabling solution and networking system installation.
- It includes multi-network cable tester for UTP/STP/356A/TIA-568A/Token ring, punch down tool and crimping tool. Perfect for network technicians to work anywhere traveling.

TCT-1400

ID Finder Network Kit One for All Network Kit With Probe & 25-PIECE ID Finder

- Combines tone generator, of face ID check, network tester, and pin-by-pin cable tester.
- Remora unit for pin-by-pin tests of patch cable or installed cable.
- Office / port ID checker establishes ID number of up to 100 networks or patch panel outlets without labels.
- Can give type and speed of both active and inactive network devices.
- Tone generator tracing cable and pinpointing fault locations easy.
- Network tester blinks the hub or switch port light for easy port # identification, and dis plays network activity and speed.
- Compact, lightweight, and portable.
- Line voltage tester prevents damage to equipment.
- Handy ID rack keeps remote ID terminators safe and ready to hand.

LAN Cable Solution Multi-Function Tester

TCT-2690PRO

- Check Coax, Cat.7,6 and 5e twisted cord network and trouble.
- Identifies and locates the distance to an open or a short in seconds.
- Use TDR (time domain reflect meter), Measure length and distance, find the trouble location.
- Find the determined open circuit, short circuit, jumper, crossed and or split pairs.
- Service line test and no external adaptor is required.
- Determine continuity and wiring pattern.
- Low Battery indication.

TCT-2670

LAN Cable Tracing Solution Kit

- (RJ45, RJ12/11, Coax) Cable (Open, Short, Cross, Split..) Test…
- (RJ45)Cable Length Measure…
- Terminator ID Identify for Cable Placing and Routing…
- Toner with Probe for Checking the Cable, for hidden cables.
- The Tester can check UTP and STP Cat 5E,6,6A and Coaxial Cable.
- It can Identify and Locate the distance of an Open or Short Circuit.
- With the Multifunction Tester you can determine the Continuity and Wiring of the Cable Pattern.
- Come with the Low Battery Indicator.
- It uses TDR (Time Domain Reflect meter) to measure the length and distance of the cable.
- LCD Backlight Display.
- Memory Mode for 8 Memory Tested Result.

LINEMAN'S TEST SET
FOR RJ11 / ABN Set Cord

- Offer the lastest in integrated circuit design, provide the industry standard packed with popular features.
- Talk/Ring/Monitor three kind of tests function, its switch located on inside of handgrip.
- Switchable tone or pulse dialing. TONE/PULSE switch are located on inside of handgrip.
- The Hi impedance monitor will not disturb data, conversation, or signaling.
- LED indicates reversed polarity.
- Last number redial(31 digits maximum).
- Protection against excessive voltage,transients ringer signals, and direct connection to most batteries and power supplies.

Color Selection

TCT-115

Pocket Pen Toner For Coax Cable

- Simple continuity tester
- Led indicator
- Toner(beep only) identifies line carrying signal.
- Check circuit integrity for new or installed cable.

Test: Detects short, splitters, identify cables coaxial drop cable.

TCT-180

Remote Cable Tester

Detachable module for testing two remote points. Open/Short wiring test. Connected wires display. No connection / No terminator indication. Wrong connection / Non-parallel connection display. BNC terminator 25Ω/ 50Ω indication. Battery good or battery low indication. Ethernet 10BASE-2 terminator value detection. Easily visible LED display provides operation status.Fast reaction during test process. Palm size with carrying bag. Maximum cable length 600 feet (RJ-45 /RJ-11/BNC).

TCT-2210

PRO LAN Cable Tester

- Quick all-in-one cable checker for opens, shorts, crossed and reversed pair identifiers.
- One-hand operation with high drop resistance.
- Snap-off the terminator for remote to test the wiring.

TCT-141

LAN Cable Tester

Easily read correct pin configuration of 10baseT, 10base2, RJ45 / RJ11 modular cables, 258A, TIA568A/ 568B,token ring, etc. Test installed cables either on wall plate or patch panel from a distance. Check for cable continuity, miswiring, open, short, grounding, and pin configurations.

TCT-101

LAN Cable Tester

With the multi network cable tester you can test BNC and RJ45 (UTP/STP) cabling for the following standards: EIA / TIA, 568A, 568B, 356A and token ring. It supports the following tests: Wire continuity, type of cabling, termination (BNC), shielded (UTP /STP).Testing before installation or after both are available.

Professional Soldering Station 48W (150℃~480℃). Temperature: 150℃~480℃. Digital display. Heater power for soldering iron: 48W. Iron voltage: 240VAC. Iron length: 198mm. Soldering station: 170 (L) x 116 (W) x 96 (H) mm.

Part No.	Description
GSL-450A	48 WATT Soldering Station 110V
GSL-450B	48 WATT Soldering Station 220V
GSR-037	Only Soldering Iron w/ wire

GS-96

Temperature Controlled Soldering Station

The P.I.D. temperature control provides an extremely precise temperature control that assures an accurate steady temperature. Digital display. The temperature range is 200℃~500℃. The soldering station provides a temperature control lock to avoid the unwanted temperature adjustment by the operator.

Part No.	Description
GS-96A	Temperature Controlled Soldering Station 110V
GS-96B	Temperature Controlled Soldering Station 220V
GSR-041	Only Soldering Iron w/ wire

GS-98

Electronic Temperature Controlled Soldering Station

Electronic temperature controlled. Temperature range is 200℃~450℃. Ceramic heater insulationrated over 100ohms at 400℃. Economic type, inexpensive price, is suitable for economical budget.

Part No.	Description
GS-98A	Temperature Controlled Soldering Station 110V
GS-98B	Temperature Controlled Soldering Station 220V
GSR-041	Only Soldering Iron w/ wire

GMC-160	Metal Dial Caliper 6" Inches (0.001 Inch)

GMC-210

Electronic Digital Caliper 0-150 mm (MeTAL)

Versatile central dial calipers perform a wide variety of precision measurements. Made with high-caliper workmanship, these stainless-steel precision ground calipers are stress relieved with a satin chrome finish. They are designed to make measuresments in four different ways: inside, outside, depth and step. With a dial indicator scale, these calipers offer exact reading to the thousandth of an inch or live hundredths of a millimeter. The dial dicator has a fine-line indicating hand for accurate readings and precise measurements.

VOLTAGE DETECTOR AC/DC

This tester is designed and tested in accordance with EN publication 61010-1, pollution DEGREE II, measurement CATEGORY II 600V. This meter complies with EN50081-1 & EN50082-1.
This tester is designed to be indoor use at temperature 5℃ to 4℃ and altitude up to 2000m. Voltage Range: 12-24-50-120-230-400-600V. Indication: LED lights up to the voltage reading.
Frequency range: 0~60Hz.

Multi-Channel Automotive Noise Finder

Multi-Channel automotive noise finder is a portable equipment to diagnose the defect of the vehicle. When the generator is running, it can detect the impact and vibration due to the defect and failure of bearing, gear, valve, crank, cylinder, gear box, and vehicle body...etc.

- Single-channel adjustable output at 0~15V, 0~1A/2A/3A/5A.
- SC panel meters voltage and current display.
- Constant voltage and current operation.
- Over current protection.

DPS-150

Linear DC Power Supply

- Constant voltage and current operation Color-coded terminals for positive and negative terminals, voltage adjustment knob.
- Over-voltage, Over-current, short circuit protection.
- Cigarette lighter output current plug.
- Current and voltage panel meter.

GRP-1200

Isolation Transformer

- Two direct outputs and two isolated outputs
- Fused isolated outlets
- Power requirements: 120VAC 60Hz
- Isolated outlets: 450VA continuous, 550VA peak intermittent
- Direct outlets: 900 VA
- Isolation leakage: <0.1mA
- Dimensions: 6” x 5” x 9”

Digital / Analog Design Labs

IDL-800

Two 7-segment displays(digit height 0.3)solderless breadboard interconnected nickel-plated tie points, fitting all DIP size and all components with AWG #22-30(0.3-0.8mm) solid leads. DC power supplies equipped with short circuit protection. Variable DC power: 0 to +15V & 0 to -15V @ 0.5A. Frequency range: 1HZ-10HZ, 10HZ-100HZ, 100HZ-1KHZ, 1KHZ-10KHZ,10KHZ-100KHZ. Sine wave output: 0-8 Vp-p variable. Triangle wave output: 6Vp-p fixed. Square wave output: ±5V fixed.

OLS-1000

Analog Overlay Learning System

Electronics could be taught straight out of a book if the students were able to visualise the function of an experimental circuit. Unfortunately this rarely the case and until now it has been necessary to laboriously assemble every experiment to be examined. The assembly of each circuit has no didactic value what sover other than to provide the student with a circuit on which to do the experiment. Nowthe OLS-1000 overlay learning system is coming.

ETS-7000

Digital / Analog Trainning System

Solderless breadboard: ETS-7000 interconnected with 2712 tie points nickel plated contact, fitted all dip sizes and all components with lead and solid wire AWG#22-30 (0.3-0.8mm), It can be changed and replaced for different purpose and can be connected with demonstration panel. There fore, it is very convenient for both teachers and students. DC Power supply: (a)fixed DC output: +5, 1A. (b)fixed DC output: -5V, 300mA. (c)Variable DC output: 0V to +15V, 500mA. (d)Variable DC output: 0V to -15V, 500mA. Potentiometer: (a)Variable resistor Vr1=1k. (b)Variable resistor Vr2=100K. Function generator: (a)Frequency range 1HZ-10HZ, 10HZ-100HZ, 100HZ-1KHZ, 1KHZ-10KHZ, 10KHZ-100KHZ. (b)Amplitude sine wave output: 0-8vpp variable. Triangle wave output 0-6vpp variable square wave output: 0-8vpp variable. TTL mode output 0-+5V. 8 bits data switches: 8pcs toggle switches and corresponding output point. When Switch is set "down" poistion, this output is to level, contrarily, it is to be Hi level while setting at "up" position.

Solderless Breadboards

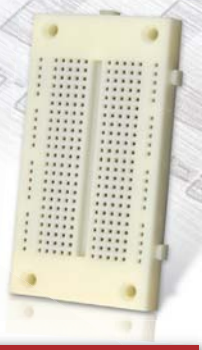

These long-lasting solderless breadboards feature screen-printed color coordinates suitable fro many types of digital and analog prototyping and circuit design. Larger models feature a heavy-duty aluminum backing with binding posts.

- Accepts most electronic compontents, including integrated circuit and transistors for digital and/or analog circuit.
- 0.1" hole spacing. Ideal for high frequency and low noise circuits.
- Pins are identified by numbered rows columns.
