Relay for monitoring levels in wells, basins, tanks...

General characteristics

- Electronic relay for monitoring level of liquid
- 5 relays output with changeover contacts (5 x SPDT)
- 4 green LEDs for relays state - levels 2...5
- Red LED for relay state - levels 1
- Industrial housing; rail 35mm mounting

Technical parameters

Supply terminals:	230 V; 50Hz
Consumption:	max 3VA
Current rating:	6A/250V AC1 6A/24V DC1
Protection degree:	IP40
Dimensions:	97 x 93 x 43mm

Function

Relay is designated for monitoring of levels of conductive liquids.
The device monitors levels by using 6 probes (include one common).
In case you use a tank made of a conductive material, you can use it as a probe E0.
